Introduction to Laser System Modeling using SHαRE

23-24 June 2026 10am-6pm ET
\$2,250/student

Virtual training via Teams

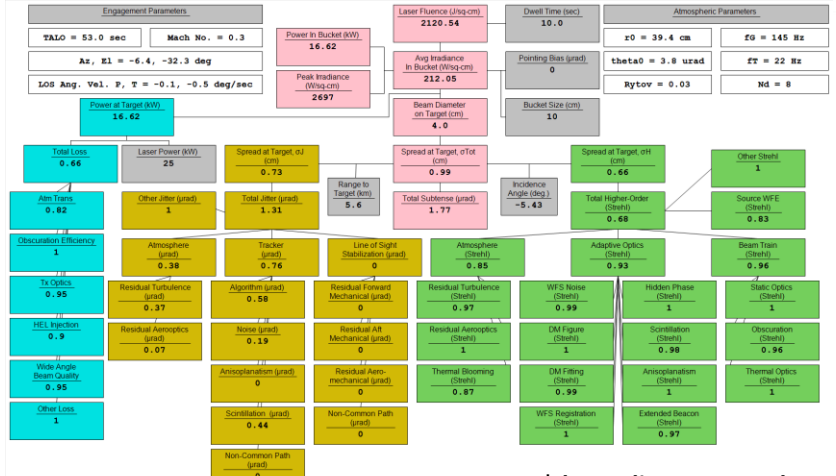

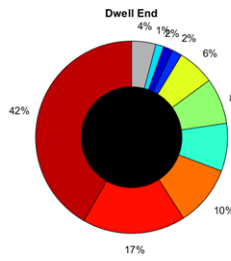

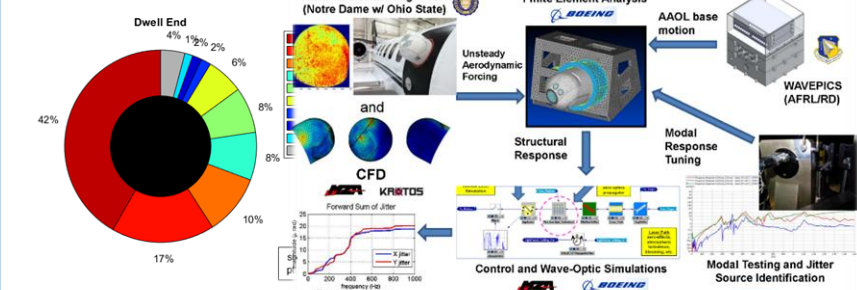

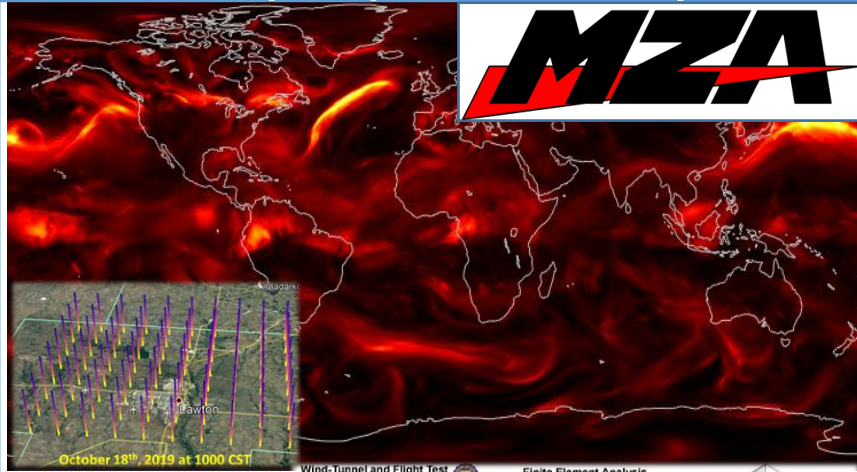

In-person may be available in Albuquerque and/or Dayton*

System Modeling

- *ATMTools and EngagementTools*
- *Propagation and beam control*
- *Aero-optical effects*
- *Intro to modeling techniques with SHαRE*
- *Hands-on with Matlab*
- *Example models*

New Features

- *2026A Release*
- *Aero-effects modules*
- *Path resolved beam metrics*
- *Improved wave-optics functionality*

*depending on attendance
